

## Comptence Center for UV-Fibers and Systems

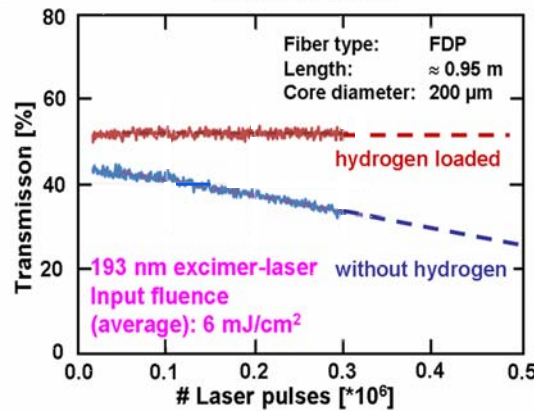

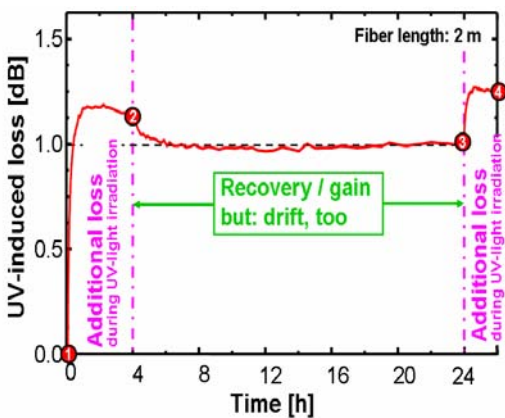

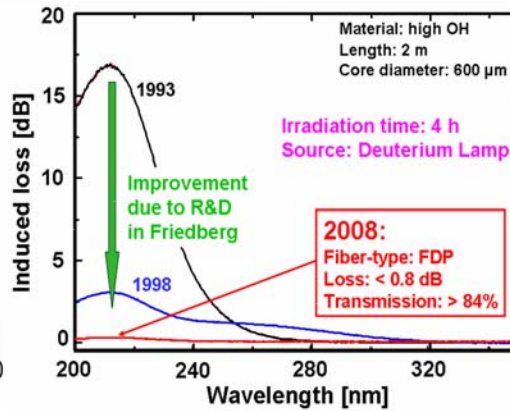

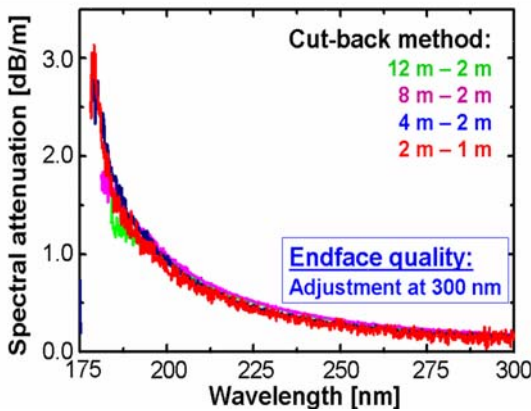

### New DUV applications and solved problems

Degradation of total  
UV-system including  
fiber-optic components

Window contamination  
with liquids and solid  
matters

### Certified UV fibers with high UV transmission and stability

Competence Center  
„Optical  
Technologies  
and Systems“

Laboratory for  
Optical  
Communications  
and Waveguides

Prof. Dr.-Ing.  
Karl-Friedrich Klein

Dipl.-Ing. (FH)  
Cornell P. Gonschior

Dipl.-Ing. (FH)  
Christiane Jakob

Partners of  
Cooperation

Heraeus
