Workshop on Image Processing & Deep Learning with MATLAB

14.11.2019, 14:00, Room A3.2.10, THM Campus Friedberg

In this workshop you will:

- **Learn how to access MATLAB at THM**
- **Get started with image processing in MATLAB**
- **Learn deep learning techniques in MATLAB to solve the OPEN AI Caribbean Data Science Challenge for a chance to win $10000 worth of prizes**

In this challenge, your goal is to build a model to classify the roof material of identified buildings in St. Lucia, Guatemala and Colombia using aerial images. We recommend bringing your laptop.

Need to learn MATLAB?
Build your MATLAB skills using our self-paced courses.
