

Comptence Center for UV-Fibers and Systems

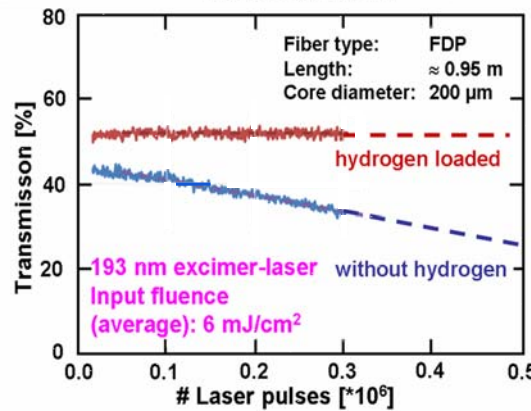

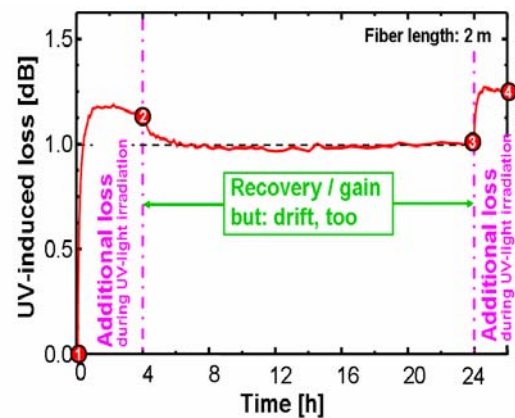

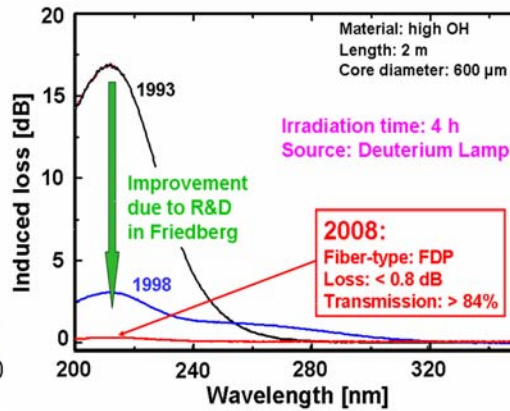

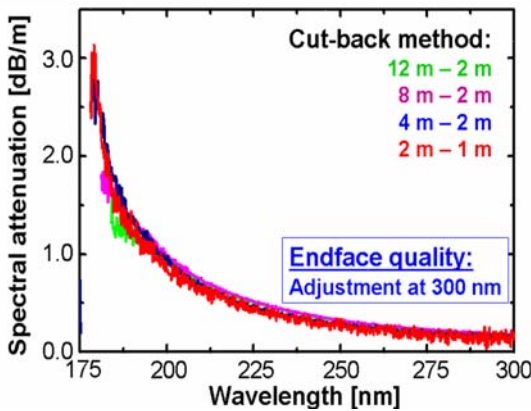

New DUV applications and solved problems

Degradation of total
UV-system including
fiber-optic components

Window contamination
with liquids and solid
matters

Certified UV fibers with high UV transmission and stability

Competence Center
„Optical
Technologies
and Systems“

Laboratory for
Optical
Communications
and Waveguides

Prof. Dr.-Ing.
Karl-Friedrich Klein

Dipl.-Ing. (FH)
Cornell P. Gonschior

Dipl.-Ing. (FH)
Christiane Jakob

Partners of
Cooperation

Heraeus
